British

Objective: I am currently looking for one to three months full-time work. After which I plan to move to Paris to attain a good level of fluency in French while working and living there.

Academia

2004-2008	Masters in Biomedical Engineering at Imperial College London	2:1 (60%)
2007-2008 <i>Thesis</i>	Specialisation in BioMechatronics at TU Delft in Holland <i>Predicting Nanoparticle Behaviour: Correlation between polystyrene nanoparticle kinetics in glycerol and a theoretical simulation.</i>	
2006-2007 <i>Group Project</i>	Specialisation in Mechanical Engineering at Imperial College <i>Make, test and obtain results from a rig which realistically measures steering reaction time and could be used clinically.</i>	
2004-2006	First and Second years in Biomedical Engineering at Imperial College	
2003-2004	A-Levels in Maths, Further Maths, Chemistry and Biology	AABB

Computer Literate	Familiar with all Microsoft office packages, Matlab, C++ and C Touch typing – 58 wpm, 100% accuracy	
Languages	French (AS Level) and Dutch (at university) – Working knowledge German (GCSE) and Spanish (at university) – Beginner	
Other	Clarinet Grade 5 and Music Theory Grade 5	

Employment History

Summer 2007	Researcher at Glaxo Smith Kline in applied technology. The research project spanned eight weeks and concerned the use of nanoparticles as a platform for inhalable drug delivery.
Summer 2006	Researcher at Ion Science , a small technology company in Cambridge. Two research projects spanning ten weeks. One concerned the development of a novel application for a well established device. The other concerned the development of a new technology to be incorporated into currently used devices.
Summers 2004/2005	Two summers working at the Gideon’s National Office, Lutterworth. Firstly in Dispatch and Stores and lastly as an Administration Assistant .
2002-2004	Silver Service Waiter at Leicester Race Course and at Leicester Tigers Rugby Club.

Voluntary Work Experience

During my final year I taught English one to one with international students at Imperial, during which I also read through the TEFL material, although I have no formal qualification in this. I was a member of the Christian Union (CU) committee, responsible to organise various events, such as a weekend away for seventy students. I also worked as a leader on children’s camps and with a team providing various beach activities for children during the summers 03-05.
